

8 Animal Habitats

Web Graphic Organizers Cut and Paste

in color and b/w

Children create animal habitat webs graphic organizers by cutting and pasting 6 typical animals onto a habitat mat background.

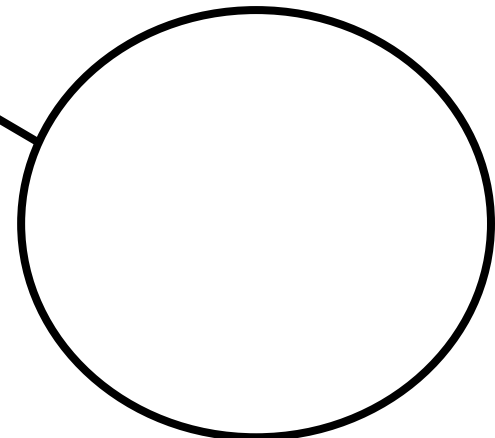

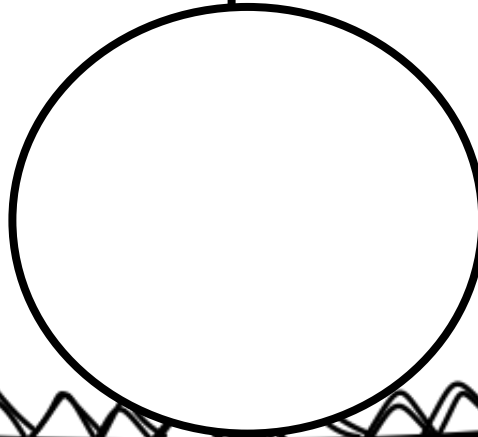

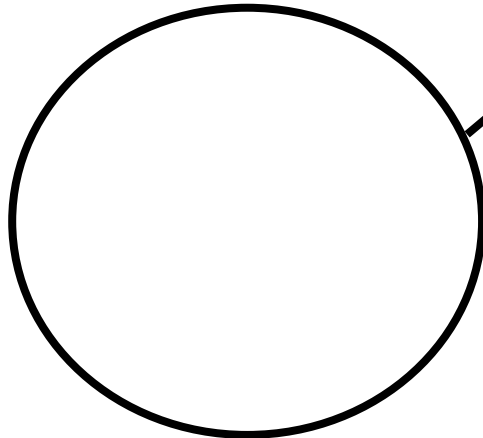

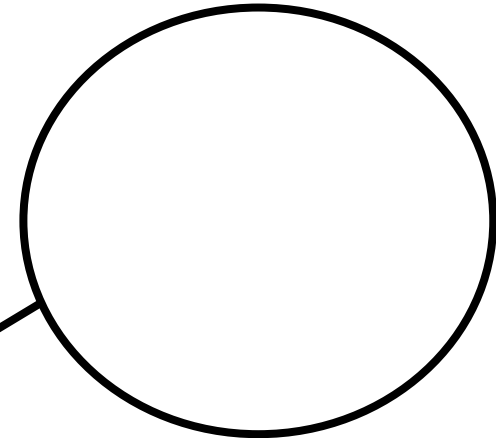

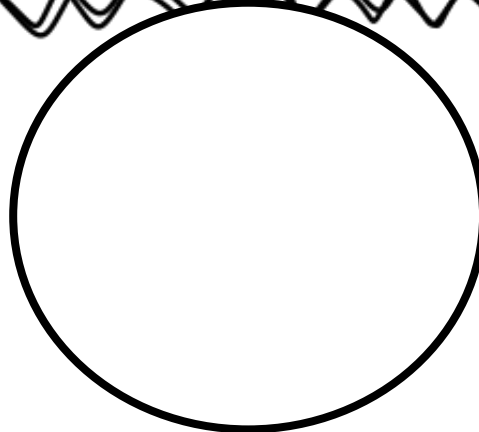

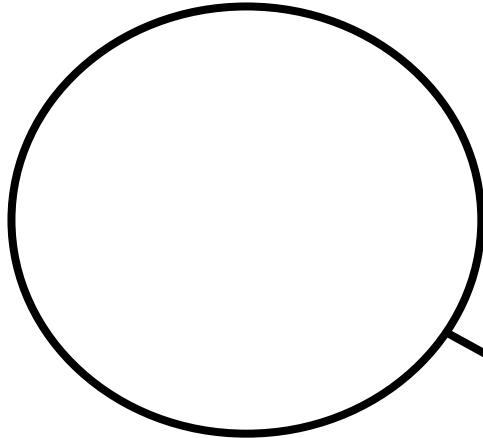

There are 8 habitats/environments represented: Forest – Rainforest – Farm – Ocean – Pond – Desert – Arctic – African Savanna.

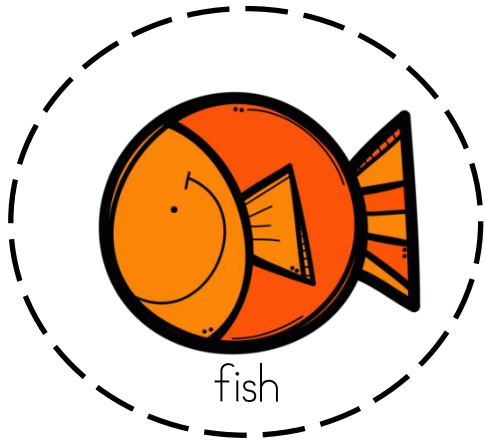

Each habitat activity includes 3 pages – a web graphic organizer; a page with 6 labeled animals to cut and paste, in color; and a page with 6 labeled animals to cut and paste, in b/w. Choose either the page in color, or the page in b/w, for the activity.

Concepts and skills: categorizing, vocabulary, cutting, gluing, picture placement, concept of a web graphic organizer, overview of habitat characteristics, making choices, awareness of a link between the printed animals names and the pictures, and having fun while learning science.
